Diamond Schmitt Associate Jose Trinidad has won a Rendering Award of Excellence from the American Society of Architectural Illustrators for his rendered section of the Buddy Holly Hall of Performing Arts and Sciences. His work will be featured in the 36th annual Architecture in Perspective catalog and exhibition.

“What excites me about this project is the collection of moments from very public to very intimate, from canyon-like spaces to small angular niches. Cutting the building to reveal this richness was such a pleasure to light, compose, and render.” – Jose Trinidad

Each year the American Society of Architectural Illustrators invites professional and student illustrators from around the globe to take part in the Architecture in Perspective competition. This international juried competition recognizes the world’s best architectural illustrations.
